

God FIRST, Then Prosper

Living in America is an exercise in FOCUS! The big New York advertising agencies want you to believe that you cannot live without the products they sell, and sell they do---in everyone's face all the time. When we are not hammered with advertising , we are hammered with politicians, making promises of what they will do to make our lives better.

Now is the time to remember that GOD IS OUR SOURCE AND SUPPLY! As busy Americans, we are challenged to hold this thought in our minds and spirits.

Accumulating "stuff" will not make us happy. No one or no thing may become our God. Politicians have never cured poverty.

The Government is not our source and supply and to hope it is will be disappointing.

Exercise Part One: TRUST GOD.

As long as we pay with U.S. dollars, we can be reminded to trust in God by reading the words on the dollar, IN GOD WE TRUST.

Exercise Part Two: DON'T COMPLAIN.

All things are possible in God! Focus on God and focus on the solutions and what you are willing to give to achieve the solutions. Write down the need, the date you will accept the good you desire, and exactly what you will do to earn or receive it. Read this twice a day aloud.

DO YOUR BEST AND GOD WILL DO THE REST!
